The Red Mite

The Red Mite visits the birds to feed at night. Its real home is in the cracks and crevices of the food-bowls. The only way to stamp out vermin and the diseases they cause is to dust all wooden-spoons and cutlery with IZAL. Powder, and spray runs and wash feeding utensils regularly with IZAL.

IZAL kills germs and parasites. It does not lose its power when exposed to the air and it is the safest, surest and most economical disinfectant you can buy. To the ends of parishes in concentrated IZAL once a week.

IZAL KILLS GERMS & PARASITES
